

Visit the HSBC Virtual Engagement and Experience (VEE) platform.

Learn about your own strengths and preferences, understand what top employers are looking for and help yourself feel more confident and ready for the applications you will soon be making.

VEE is free to use, and can be completed in your own time.

Discover

Take a career assessment to discover more about your strengths, values, preferences and learning style which will be shared with you in a detailed individual report to download and take away.

Upskill

Get yourself ready for the world of work by learning how to nurture your strengths. We'll help you practise the types of future assessments you may need to go through, including numerical and critical reasoning.

Showcase

Complete work simulations – including one designed specifically for HSBC – to gain real experience of working on a project for the bank. Completion will include a customised feedback report.

About the HSBC VEE platform

The HSBC VEE platform was developed to help level the playing field by providing you with the tools and resources to help get career ready and build the confidence to showcase your new skills and capabilities to employers.

HSBC is the first bank globally to provide access to students as part of our commitment to helping university students and graduates apply for a job, confidently, whatever their background.
